

LIBERTY UNDER LAW—EQUAL RIGHTS—TRUE INDUSTRIAL FREEDOM

WATTERSONS CONVICTED OF INYO BANK FRAUDS

Jurors Weep as They Give Verdict Finding Brothers Guilty of \$460,000 Embezzlement

BY CHESTER G. HANSON
"Times" Staff Correspondent

INDEPENDENCE, Nov. 10.—A jury in Superior Judge Lambert's court here tonight brought a dramatic climax to the trial of Mark Q. Watterson and W. W. Watterson by returning a verdict of guilty against the pioneer Owens Valley bankers on thirty-five counts of embezzlement and grand theft and one count of falsifying a bank report in connection with the wrecking of the Inyo County Bank and the embezzling of \$460,000 in deposits.

KING BEN'S RULE ENDS

Law Clears Cult Colony Throne

Court Orders That Receiver Take Over Affairs of House of David

Banishment of Leader from Contact With Followers Also Decried

ST. JOSEPH (Mich.) Nov. 10. (P)—The rule of King Benjamin Funnell over the picturesque religious cult he founded in Benton Harbor a quarter of a century ago was ordered ended today.

Circuit Judge Pease of Newberry entered an order in the State's dissolution suit decreeing that a receiver shall take over control of the House of David colony, and that Funnell, who the State asserts practiced fraud and immorality, must go into exile from his followers. The court ruled that he shall be banished from contact with them, and he is ordered to remove from the colony grounds.

The signal for the group to pass into Mr. Coolidge's office was given, and the father, carrying the still-crying baby, was pushed along against his will until he stood on the threshold of the President's room. There Mr. Coolidge patted the baby's hand and stilled the crying.

COOLIDGE'S PAT CHECKS BABY WAIL

Crying Youngster Quits When Executive Touches His Tiny Hand

WASHINGTON, Nov. 10. (P)—The pat of the Presidential hand stopped the wailing of curly-headed Robert McFarland Russell today after the child had thrown the lobby of the White House executive offices into more or less confusion just as the customary noon handshaking group was about to be received by President Coolidge.

The four-headed boy, the son of Dr. and Mrs. Alfred E. Russell, and born in Barre, Vt., had refused to quiet down even under the threat of his mother that unless he stopped crying he would not be permitted to see the President.

A signal for the group to pass into Mr. Coolidge's office was given, and the father, carrying the still-crying baby, was pushed along against his will until he stood on the threshold of the President's room. There Mr. Coolidge patted the baby's hand and stilled the crying.

'Contemptibles' to Pause Today

ACCUSED CLERK HANGS HIMSELF ON TRIAL DAY

LONDON, Nov. 10. (P)—Two hundred of the "old contemptibles" left London today to attend a special Armistice Day service tomorrow at Mons, Belgium, where two minutes' silence will be observed on the earliest battleground on the outskirts of the town.

The "contemptibles" were members of the original British regular army corps that blocked the first rush of German troops at the beginning of the World War. It was reported at the time that the Kaiser had said his military machine could easily brush aside the "contemptible little army" of the British, after the British troops had halted the Teutons they seized upon the name as a special honor.

FRANCE APPROVES FILMS FOR SCHOOLS

PARIS, Nov. 10. (P)—Motion pictures as a means of instruction in the schools of France, from the kindergarten to the institutes of research, have been approved by the Senate. The government was pledged to prepare a plan for the enactment of the Senate's wishes into law.

PRIMARY LAW HELD INVALID

Illinois Circuit Court Gives Ruling in Suit

Three Points Covered by Judge's Decision

Special Legislative Action Declared Likely

CHICAGO, Nov. 10. (P)—The Illinois primary law is unconstitutional, Judge Harry M. Fisher held today in Circuit Court in a suit brought by Julius Kreeger, a citizen, against County Clerk Robert Switzer, and County Treasurer George Harding.

Three points were covered by the judge in his ruling. The general primary law is unconstitutional, because, he declared, it deals with two subjects under one title, primary election and party organizations.

This legislation did away with registration in Chicago on some occasions and is therefore unconstitutional because some who could not register were disqualified from voting.

GOES BY PRECEDENT
In fixing the voting strength of precinct committees, there is no provision for determining that strength on a redivision of any precinct. This much of the act, said Judge Fisher, is void, under a ruling of the Supreme Court, which held the primary law of 1910 invalid.

In holding fatal the same defects in the present law, the judge said he was guided by the previous ruling.

Two acts were involved in the suit, one providing for making legislative nominations and the other providing for the holding of county offices and precinct committees.

GOVERNOR MAY ACT
Kreeger's contention was that both acts are unconstitutional. Judge Fisher said only the validity of the acts in question have been considered by him.

At Springfield, Gov. Small announced a special session of the Legislature will be called if the Supreme Court finds the present primary act unconstitutional.

"The people of Illinois do not want to return to the days of boss conventions controlled by powerful interests inimical to the people," the Governor asserted.

THOMPSON SAYS
RULING GIVES HIM CONTROL

MOUNT CARMEL (Pa.) Nov. 10. (P)—Mayor William H. Thompson of Chicago received a telegram here today informing him that Judge Fisher in the Supreme Court had declared unconstitutional the Illinois primary law.

He said that means he will have control of the entire block of sixty-one votes for his State at the next national Republican convention.

Asked who this delegation will support, the Mayor said he has no particular candidate for the Presidency in mind, but that the man who receives Illinois' vote would have to subscribe to the principles of "America first, farm relief, inland waterways to double exports and national flood control to prevent disaster."

WASHINGTON, Nov. 10. (Exclusive)—A new world record for sustained travel was announced here today by the American Automobile Association as having been made by Studebaker Commander cars. In a test run the cars covered a distance of 25,000 miles for less than 29,000 consecutive minutes.

The feat was pronounced one of the most spectacular in the field of automobile transportation.

Miners' Peace Plan Falters

DENVER, Nov. 10. (P)—Peace proposals to end the L.W.W. strike in the Colorado coal fields apparently made little headway today. Mine operators displayed no enthusiasm over plans that have been suggested, and Jesse F. Welborn, president of the Colorado Fuel and Iron Company, issued a statement in which he said there is no disagreement between the workers and the owners.

Strikers in Southern Colorado, however, planned to go ahead with a proposal to petition the State Industrial Commission to grant a hearing of their grievances.

Commissioner George Taylor said today that the State Industrial law specifies that the commission can act in disputes only between employees and employers and that the striking miners do not hold the status of employees, as the strike has been held illegal.

Boy Lives With Bullet in Brain

ATLANTA, Nov. 10. (P)—A 12-year-old boy in whose brain a bullet has been lodged since Halloween and who has amazed hospital physicians by what they say has been a courageous demonstration of a will to live, partly regained consciousness yesterday and nibbled on a piece of candy.

Although in a semiparalytic condition from the effects of the wound, hope now is expressed for his recovery.

The youth is Loren Lester, a schoolboy, who was shot by a stray bullet while participating in a Halloween celebration on a downtown street. E. F. Kerey, proprietor of a restaurant, who fired the shot, is being pending the outcome of the boy's injury.

BOY BANDITS SHOOT MAN
SACRAMENTO, Nov. 10. (P)—C. W. Kripp, 25 years of age, service-station attendant, was shot in the right leg today by two youths who carried out a daylight robbery at his station. The bandits, both about 20 years of age, escaped with \$15.

Writer Will be Russian Exile

Prince's Bride

Spotlight Shifts to Sport, Tax Committee Told

Repeal of Levy on Tickets Strongly Urged

Elimination of Other Excise Revenues Demanded

WASHINGTON, Nov. 10. (P)—Interwoven with an appeal for elimination of the miscellaneous taxes remaining from the war, testimony at the House Ways and Means tax hearings today told a story of the gradual decline in popularity of the spoken drama throughout the country.

Representatives for actor and managerial associations asked the committee at its concluding public session to provide a judicial order for repeal of the 10 per cent tax on theater tickets when it takes up the writing of a revenue bill to be closed doors next week.

The spokesmen for the stage were joined by other witnesses in seeking repeal of the excise levies, especially the taxes on baseball admissions, club dues and wines, and a revision of the rates on cigars.

ACTORS LOSE SPOTLIGHT
The testimony told how in recent years the spotlight on one or two have been turned off in cities throughout the country and how, in the words of William A. Brady, speaking for the theatrical enterprise in New York, the popularity of the actor has given way in favor of personages such as Babe Ruth and Gene Tunney.

Frank Gillmore of New York City, speaking for two actors' equity associations, said that as a young man he had played each night for six weeks in Texas, adding:

"Tonight I don't believe you could find a single spoken drama in the whole of the great State."

"I doubt if half of the actors pay income taxes," he continued, "and the average working year of an actor in New York now is only twenty-two weeks."

Other witnesses told of the passing of the road show. Legon Johnson, New York City, representing the International Theatrical Association, declared:

JUMPS ARE LONG
"Since that tax was imposed the number of shows on the road has decreased by one-third. The jumps between shows are long ones now. The cost of spoken drama has so increased that the tax can't be absorbed and consequently is passed on to patrons."

A number of those testifying assailed the Treasury for urging retention of the excise levies and Mr. Brady objected to a tax on theater tickets being looked upon in the same way as the government levy on tickets to the Dempsey-Tunney fight in Chicago.

Gilbert Miller, New York producer, deplored the tax on admissions, asserting that in other countries the theater is given a subsidy instead of taxed. He agreed with Representative Garner, Democrat, Texas, that in "all other civilized countries" the theater is supported and not subjected to a government tax.

While spokesmen for the theater admitted repeal of the tax will not solve all the problems, they contended it will help. It was said the spoken drama is an intimate form of amusement and the theaters must be small, compared with film houses, so that the expression of the actors can be seen and their voices easily heard.

THEATERS EXPENSIVE
Representative Sol Bloom, Democrat, New York, noted for years with the theater industry, appearing as a witness, said it now is an expensive proposition to build a theater, and testified concerning maintenance of grand opera companies which, he said, can be kept going in many cases only by donations.

Elimination of the 10 per cent tax on all club dues, initiations and fees was sought by Henry Clay Anderson, representing the Bowdoin Club, Ky., and other country clubs.

He argued that golf and country clubs are no longer a rich man's hobby and that they provide healthy employment for boys during summer vacations. Last year, he said, the total earnings of caddies approximated \$44,000,000.

BASEBALL TAX OPPOSED
J. H. Farrell, Auburn, N. Y., representing the national organization of minor baseball leagues, urged elimination of the tax on admissions. If this cannot be effected, he asked that the tax at least be taken off \$1 admissions.

Marion Davies, Washington, D. C., on behalf of the California Vineyardists Association, urged repeal of the tax on wines, and William Hamilton Osborne, New York City, for the Authors' League of America, asked revision of the classification of what constitutes an income to allow writers greater exemptions.

Definite action against repeal of the estate or inheritance tax was voted unanimously today by the group of independent Republican Senators from the West. The group, which included Senators Borah, Idaho; Norris, Nebraska; Nye and Frasier, North Dakota; Brookhart, Iowa, and McClellan, South Dakota, laid plans to wage an active campaign against movement to have the levy abolished.

Fraud Practiced by Recruits for Army and Navy

WASHINGTON, Nov. 10. (P)—A new method of obtaining transportation at Uncle Sam's expense was disclosed today by the Department of Justice, which said there had been extensive frauds perpetrated by men offering themselves as army recruits.

"This system of fraud appears to be developments of the United States," the department said today. It involves the practice of obtaining transportation on government requisition from recruiting officers of the Army and Navy, ostensibly to report for duty at a distant point, whereas the evidence in several cases tends to show that the formality of enlisting was merely gone through to obtain transportation.

FIRE RESTRICTIONS IN SIERRA FOREST ENDED

NORTHFORK, Nov. 10. (P)—Special restrictions in force in the Sierra National Forest during the fire season this year including the no-smoking rule and the one shovel, one ax per car regulation were removed today. It is announced by M. A. Benedict, forest supervisor. The recent rainfall ended the fire danger, and the necessity for the regulations, Benedict said.

DRAMA'S DAY ON STAGE NEAR END

Spotlight Shifts to Sport, Tax Committee Told

Repeal of Levy on Tickets Strongly Urged

Elimination of Other Excise Revenues Demanded

KNAPP-FELT HATS for MEN

EVERY day more men are realizing the prime importance of the hat in the scheme of dress. This probably accounts for the wonderful growth of the Knapp-Felt business, which taxes the capacity of the new factory.

The New Knapp-Felt Hat is the POMFRET

The POMFRET as worn by CREIGHTON HALE co-starring in "Ladies from Hell" at Loew's State Theater.

It will be shown everywhere Friday, November Eleventh

The Pomfret is one of those rare inspirations that have the distinctive made-to-order look, which is the high point of hat design; it fits the personality of the wearer!

CHICAGO GAMBLING LID ON

Police Chief Announces Move as Another Step to Drive Crooks Out of City

CHICAGO, Nov. 10. (P)—Open gambling in Chicago has been stopped, Michael Hughes, Chief of Police, said tonight, but the police and gamblers were at variance on the reasons for stopping it.

From the sumptuously furnished places where men and women in evening dress gathered to wager large sums on roulette and faro, to the dingy little dens where black jack, poker, dice and the ponies predominated, the lights were out, and the doors locked.

The police said it was just another move in Chief "Go-get-'em" Mike's plan to drive crooks out of Chicago and enforce the laws. They said they started a war on the gamblers before the gamblers started a war among themselves, likely to result in a number of killings.

At this explanation the gamblers laughed. They said the police were trying to "freeze out" the little gambler and place all control of gambling in the hands of one or two large syndicates.

Chief Hughes said shortly that the lid was on and that it would stay on. The gamblers, playing their trade surreptitiously on street corners, by the nod and wink signals, said they would be back at the old stands in a few days.

The police charged that many gamblers formerly engaged in the liquor racket have turned to gambling until this business also became crowded, with the result that some of the gamblers sent word to their rivals to stay in their own districts.

Quick Relief from Pains and Aches

Court Defies Law Decreeing Death Penalty

OAKLAND, Nov. 10. (P)—Jesus Prudencia, sentenced to life imprisonment for the murder of Anthony Garcia here three months ago, was granted a new trial when he appeared before Superior Judge Wood here today, despite the fact that the State Supreme Court had instructed Judge Wood to give Prudencia the death sentence.

Prudencia was found guilty by a jury of murder in the first degree. Ordinarily this leaves the court no alternative; the convicted man should be sentenced to death.

Judge Wood, however, is openly opposed to capital punishment. He refused to sentence Prudencia to hang, but imposed a sentence of ten years to life, the second-degree murder punishment. The prosecution appealed to the highest court.

Accountancy Board Named

SACRAMENTO, Nov. 10. (P)—Three members of the State Board of Accountancy, B. W. Bours and John F. Forbes, both of San Francisco, and H. Ivor Thomas of Los Angeles, were reappointed today by Gov. C. C. Young. The other board members are George R. Keast of San Francisco and Raymond E. Blight of Los Angeles.

The reappointments were not announced earlier, Gov. Young said, because he desired the time to study other important matters. He had long since decided to rename the men, as he found that, due to their untiring efforts in behalf of the board, nothing could be gained in the interests of the State by supplanting them.

Forbes has been a member of the board since 1909. Both the other men were appointed by ex-Gov. Stephens.

GRAFT WAVE IN CITIES PICTURED

"Political Debauchery" Held Widespread in Nation

Professor Points to Chicago, Indianapolis, New York

Even "Young Tammany of Smith" Not Pure

NEW YORK, Nov. 10. (AP)—The picture of a crime wave in public life came to the fore today in the warning of Prof. Luther Gulick of the National Institute of Public Administration, assistant secretary of the department, extending over half the country. In a survey of social and inefficiency in American public life, Dr. Gulick yesterday told the government research conference at the opening of a three-day session that despite belief to the contrary graft and corruption still prevail in governmental administration.

TAMMANY INDICED
Debauchery in government, he declared, exists all the way from Kansas City with its contractors, and Chicago with its city hall, to New York State and the "political machine" of Mr. Roosevelt. He also pointed to the "political machine" of Mr. Roosevelt. He also pointed to the "political machine" of Mr. Roosevelt. He also pointed to the "political machine" of Mr. Roosevelt.

BOOK ONE: THE ISSUE
The cry "bureaucracy" aroused in our blood the memories of many and indignations of many. Every man and woman who has lived in the struggle for freedom, but it draws attention from the political manipulations of power, and assessments, building inspectors, the enforcement of law and the "protection of citizens," he said. The recent political upheaval in Indianapolis, "the last and least" with reference to the enforcement of the prohibition law, where the "political machine" was an alien imposition, and the New York City milk scandal all were mentioned by the speaker.

He said, however, there is an encouraging side pointing out that Rochester, N. Y., "already well governed, will be the foremost example of good government in five years with an able City Manager." Buffalo and Cincinnati also have effected reforms, he said.

A report made to the New York State Farm Protection Bureau convention here today by Maj. John A. Warner, superintendent of State police, showed that all but fifteen of the 100 persons arrested by the troops for this form of petty larceny were convicted.

The vigilance service in which the troops play their part was organized by the farm bureau about two years ago as a result of a drive to stamp out thefts of fruit and farm produce in the State. A preliminary survey by the bureau disclosed that most of the farm produce thefts were committed by motorists.

DAILY WARS ON BONES OF DEAD

Over German Dignity in South Tyrol Changed to Worst

VIENNA, Nov. 10. (AP)—The newspapers throughout Austria today publish a story from Bolzano, in South Tyrol, declaring that the masses in the villages of South Tyrol, Austrian territory, given to Italy by the peace treaty, have issued orders that all epitaphs in the German graves, which have been erected since 1900, must be erased and inscribed in Italian language before the 20th inst.

Tens of thousands of tombstones are affected by the order, which carries severe penalties if not observed.

VANDERBILT FILES SUIT FOR DIVORCE

Says Wife Discouraged His Newspaper Efforts; She Also Asks Divorce

RENO (Nov. 10). (AP)—Cornelia Vanderbilt, 37, filed suit for divorce in the district court here today against her husband, Walter Vanderbilt, 40, a writer and publisher.

Vanderbilt in his complaint asserts that his wife discouraged his newspaper work and wanted him to enter some business that gave him more time for social affairs. Her objections to his business, he said, caused their differences, and they separated finally more than a year ago.

It is reported here that Mrs. Vanderbilt will file the depositions to prove her charge of desertion, that Vanderbilt will not contest, and probably will permit the decree to go to his wife.

Mrs. Vanderbilt is a half-sister of Martin L. Littleton, New York attorney. Vanderbilt formerly was a newspaper publisher and lives in New York.

Students Defy Police in Strike

MILWAUKEE, Nov. 10. (AP)—Unbowed by threats of police that their demonstrations will be halted, more than 200 striking students of Cudahy High School gathered this afternoon on a vacant lot and paraded through the downtown business section of the city.

They displayed banners reaffirming their determination to strike until their most fundamental demands are met, and their superintendent, E. C. Seifert, is requested.

SAN RAFAEL MOVES TO BANISH CHINESE

SAN RAFAEL, Nov. 10. (AP)—Fifty years of age and traditionally a most notorious criminal rendezvous of the Pacific Coast, all that is left of San Rafael Chinatown now is to the limits of its predecessors. The City Council has an order because the district now is a nuisance, an eye sore and a fire hazard. Once notorious because of the mysterious, in it through romance-seeking eyes, all that remains is a humble of three architecturally disappointing buildings—a laundry, curio store and chair-mending emporium—and about thirty Chinese. Once the district housed several hundred.

South American Member to Aid Preliminaries

Will Not Take Official Part in Deliberations

Pan-American Relations to Be Conference Topic

GENEVA, Nov. 10. (AP)—Although the League of Nations does not intend to send an official observer to the forthcoming Pan-American conference in Havana, the League secretariat probably will participate in the work of preliminary organization for the conference.

An official note dated today said that the League secretariat is sending Cristobal Rodriguez to Havana. Rodriguez is a Panamanian and is a member of the secretariat. It also is reported that one or more League interpreters may go to the conference.

It appears that Cuba, which is a member of the League Council, first consulted the League secretariat, and then the Pan-American conference, in arranging such matters.

Dr. Rodriguez is a Panamanian, and is a member of the secretariat. It also is reported that one or more League interpreters may go to the conference.

UNDER POINTS PATH TO PEACE

Expects American Can Dictate by Preparedness

Declares No Nation Can Win War Minus Our Aid

Forecasts Action When More Veterans Enter Congress

CHICAGO, Nov. 10. (AP)—America can dictate peace by preparedness for war, Col. Harbord MacNair, Assistant Secretary of War, declared in a luncheon Club address today.

"We have built the greatest nation in the world," he said. "We have become the creditors of the world. No man will dispute the fact that we can dictate peace. No nation or group of nations will be able to plunge the world into war against America's will, if we have vigorous leadership to exercise it."

The Assistant Secretary of War predicted that when the veterans of the World War formed the majority in Congress some kind of defense act would be passed.

"When there is written into the law that no resource of the nation, or any individual within, shall remain stood or in favored position—that all America will go forth as one man to the nation's defense—then and then only will our machine be on its way toward fulfillment. Then shall we be able to say authoritatively, America not only wants peace, but America intends to have it."

MacNair's address was the first of a series of addresses by the Assistant Secretary of War to the Club.

Over the Line

There is a dead-line in man's hand. Above that line one finds quality, dependability and satisfaction. Below the line one finds substitution and price inducement.

Below the danger line we will not go. Our trade expects quality—always. It would be poor business on our part to attempt to overcharge—even.

CAROL'S PLOTS TO BE EXPOSED

Secretary on Trial for Conspiracy

Challenge Planned on Jurisdiction in Case

BUCHAREST, Nov. 10. (P)—The Crown Prince Carol's efforts for the restoration of his rights as Rumanian throne will be laid before the coming weeks as far as the Rumanian government can. A former undersecretary of the Rumanian government, went on trial before court-martial, charged with conspiracy to bring Carol back to the throne. The little prince, his 6-year-old son, and his 6-year-old daughter, were the little white-washed court-martial proceedings opened, and the walls were more than 100 yards away and ready to be blown away by the accused official. The court-martial was a farce, and the court-martial was a farce, and the court-martial was a farce.

JOKE ON POLICE IN SECRET CODE

All Bucharest Laughs at Meaning Put on Names Engraved on Gift

BUCHAREST, Nov. 10. (P)—Bucharest laughed today at the disclosure of a so-called secret code which the Rumanian secret police found in the possession of Lieut. Teodoru when he was arrested with his wife a few days ago as a second Carolist plotter while clandestinely crossing the frontier. The code consisted of a list of names engraved in a silver cigarette case. Among them was that of Mme. Magda Lupescu, for whom former Crown Prince Carol left his wife, Princess Helen, and renounced the throne. The names are those of friends who gave the cigarette case to Teodoru as a birthday gift. Police had described the case as a sensational document, asserting that the list of names was a secret cipher used by Prince Carol and his Rumanian supporters.

FLOOD CONTROL WORK ASSAILED

Mississippi Methods Rapped at House Hearing

Army Engineers and River Board Criticized

North Dakotans Offer Plan for Reservoir

WASHINGTON, Nov. 10. (P)—Criticism of flood control methods of the army engineers and the Mississippi River Commission by committee members developed today at the House hearings on the subject after two witnesses from Mississippi had praised the War Department's past efforts to keep the river within its banks. Declaring that he had heard "the commission panned from one end of the valley to the other," Chairman Reid of the Flood Control Committee asserted that the army engineers and the commission had an unestimated balance of \$10,000,000 for flood control work in the Mississippi Valley at the time of last spring's flood. He said Congress "never has been derelict in its appropriations for flood protection to the commission."

BLACK EYE RATE SET AT \$200

Ordinary Beatings Worth \$100 Each for Wife Suing for Alimony

SAN FRANCISCO, Nov. 10. (P)—One way wives can assure themselves of alimony is to acquire black eyes and black and blue marks from their husbands. Evelyn P. Benjamin appeared before Superior Judge Graham here today asking a divorce and alimony. After she told her story the judge took out his pencil and said: "Let's see. Three black eyes at \$200 apiece makes \$600, and four ordinary beatings at \$100 apiece totals \$400. That's an even \$1,000, and you can have it in a jump sum for alimony." She took it.

WORLD LEAGUE'S WORK PRAISED

Good-Will Conference Lauds Locarno Pacts

International Discussions Held Aid to Peace

Spirit of Compromise Seen as For of War

ST. LOUIS, Nov. 10. (P)—International conferences and outpouring of hostile aggression may not result in abolishment of war, but may at least prolong periods of peace, said two speakers here tonight before the Mal-Gen. Henry T. Allen and Prof. James T. Shotwell, director of the history and economics division of the Carnegie endowment for international peace, the speakers, indirectly United States' entrance into some world peace conference. "We may look upon the source of nations, war, as an inevitable," declared Allen. "Let us make the intervals of peace as long as possible by sacrificing some part of our nationalism for world welfare and by conferring on a parity, in a spirit of compromise, with all sovereign states. 'Despite hostile declarations by a not inconsiderable part of our press toward the League of Nations and its principal achievement, the Locarno pacts, there has been a consistent and steady progress toward peace throughout the world since that great organ of agreement, that parliament of man, was established.' The World War brought western civilization to the brink of destruction, declared Gen. Allen, and another such war will inevitably be a victory over civilization. A third speaker, Manley O. Hudson, Dennis professor of law in Harvard law school, also professed to see the League as today offering the "one avenue to world organization."

PHONE COMPANY LOSES IN RULING

Pomona Valley Line's Toll Plea Rejected

Single Scale of Rates for Towns Ordered

Board's Decision Aims to Increase Business

SAN FRANCISCO, Nov. 10. (Exclusive)—Users of the Pomona Valley Telephone Company benefited and the company suffered in an order handed down by the State Railroad Commission late today. Rejecting the application of the company for authority to divide its territory into three separate exchange areas, with long-distance tolls from one to the other, the commission fixed rates for the most part considerably lower than the company requested, denied the requested privilege of different schedules for the proposed areas and ordered a single scale of rates to subscribers in Pomona, Claremont, La Verne, San Dimas and Chino, without toll charges from one community to another. The hearing, which was conducted before Commissioner Whitsett, developed the company's need for more revenue, which was conceded by the five cities involved, but in line with a practice which has been dominant in the commission's rulings for several months, the order is designed to stimulate business, thus affording the additional revenue. The commission fixed a rate base of \$925,000 for the company, against its request based on an asserted reproduction cost of \$1,250,000.

G.O.P. SOON TO PICK MEET CITY

Detroit Regarded as Choice for Convention

San Francisco Said to be Out of Running

Butler's Committee Meets on December 6

BY ROBERT B. ARMSTRONG
"Times" Staff Correspondent
WASHINGTON, Nov. 10. (Exclusive)—The date and the city where the next Republican convention will be held will be selected here in Washington within less than a month. Chairman William M. Butler of the committee is now working out all the details of the meeting of the full committee, which will start Tuesday, December 6, and remain in session over the following day, if necessary. Inasmuch as the executive committee of the party meets on Monday, December 5, before the full committee assembles, it is expected that the whole program will be ready to finish on the first day of the session.

It is now expected that the date will be set for Tuesday, June 12, 1928, and the most likely choice is Detroit, Mich., the birthplace of the Republican party. For the first time in its history Detroit has adequate hotels to care for a convention, and a newly completed auditorium will seat 17,000 persons.

RAY CITY DECLARED OUT
San Francisco, which some time ago had made plans to capture the convention, will not be chosen, for several reasons, the principal one being that the approaching Congress will be in session up to a few days before the convention, which will not leave time to make the long trip to the Coast.

Another important thing develops in connection with the convention, and that is that no forecast of its nomination will be possible before the ballots are cast, and most of the platform and all of the candidates will have to be picked by the actual delegates there. Many important men in the party will be needed there and it will be an eastern city.

The committee is to meet at the Willard Hotel.

Cities which desire the Republican national convention next year have been informed they must have their invitations in the hands of the secretary of the committee, Roy O. West, by the 15th inst. Mr. West is in Chicago, and some of the invitations have gone to him there in the first instance and some have been forwarded to him after being received at the national committee headquarters here. Among the other cities which will seek the convention are Cleveland, Kansas City, Seattle, San Antonio, Denver, Philadelphia and Chicago.

SENTIMENT SWITCHES
Before the President's announcement of August 2, last, that he did not choose to run for President in 1928 there was considerable sentiment among members of the committee for holding the convention in San Francisco. Today little of this sentiment still exists and there is a general feeling that it would be better to have the convention in a city more accessible to all sections of the country, particularly if there is to be a convention in which many ballots are to be taken in a real contest over the nomination. The fear is expressed that men whose presence may be valuable to the party would be unable to give the time to make the trip to the Pacific Coast.

The convention city, it is said, will be selected with a view to the best interests of the Republican party. There is no inclination to "sell" the convention to the highest bidder among the cities. A guarantee fund for the expenses of the convention and the committee will be required. Those expenses usually run in the neighborhood of \$100,000 to \$125,000. But if the expenses are less than the specified guarantee fund the balance does not go to the Republican committee for the campaign, but back to the city.

CITY NOT DEFINITE
There has been no crystallization of sentiment upon the convention city. It is said, however, the likelihood of a middle western city winning the prize is growing. In 1924 the convention was held in Cleveland and in 1920 in Chicago. Both these cities will be considered when the committee meets here next month.

In addition to selecting a convention city the committee will provide for call for the national convention and pick the date. Each State and territory will be informed officially regarding the number of delegates to which it is entitled under the apportionment rules. This matter is being looked up now and the votes of the last elections canvassed. States are allowed a "bonus" of delegates if the Republican vote has reached large proportions. Incidentally that apportionment acts as a brake upon the control of the convention by States which have failed to cast their electoral ballots in the past for the Republican candidates for President and Vice-President.

DEMOCRATS ACTIVE
While the Republicans are planning their national committee meeting there is renewed activity among the Democrats, who plan a Jackson day dinner in the week of January 12, the date set for the meeting of the Democratic national committee in this city. All factions of the party appear to favor the dinner as a move toward harmony. Leading Democrats here today said reports John W. Davis, the Democratic nominee for President in 1924, would be the only speaker at such a dinner were unlikely to prove correct. The Democrats are looking for a winner and they want to hear from one, if they can. Furthermore, any suggestion that Gov. Smith of New York might not be invited to be present and to speak at the dinner was regarded as improbable. A Democratic national gathering that did not include Gov. Smith would, it was said, be like "Hamlet" with Hamlet left out, in view of his outstanding position in the party today.

Some doubt was expressed, however, that Gov. Smith would speak at the dinner, because of his evident desire not to thrust himself forward as a candidate for the nomination, but to remain in New York attending to his job as Governor.

DATES ANNOUNCED FOR NEXT STATE FAIR
SACRAMENTO, Nov. 10. (P)—Charles W. Paine, secretary and manager of the State Fair, announced today that the State Board of Agriculture has fixed September 1 to 8, inclusive, as the dates for the 1928 California State Fair, which will be held here.

FARMER RELIEF MEETINGS FAIL

Organizations Unable to Agree on Bill

Chiefs Foresee Compromise Early This Winter

Equalization Fee Stumbling Block in Parleys

WASHINGTON, Nov. 10. (P)—Unable to agree on a farm relief bill, representatives of three of the most powerful farm organizations broke up a conference here today to submit proposals for a compromise on the vexed McNary-Haugen measure to their respective conventions, assembling soon.

Despite the collapse of the conference, attended by officers of the National Grange, the American Farm Bureau Federation and the Farmers' Union, hope was expressed by the delegates that some agreement might be forthcoming early in the year.

No sooner had the two-day meeting broken up than Senator McNary of Oregon, coauthor of the McNary-Haugen bill and new chairman of the Senate Agriculture Committee, began conferring with farm leaders, some of whom had attended the meeting, looking to a solution of the agricultural situation.

COOLIDGE TOLD
An expression of hope for a meeting of minds by the farmers was given at the White House, where L. F. Faber, master of the Grange, called on President Coolidge to report the difficulties encountered in the attempt to work out a compromise.

The controversial equalization fee provision of the McNary-Haugen bill, which the President vetoed, proved the stumbling block in the farm meeting. The Farm Bureau Federation stood by this proposal as a means of raising funds to market surplus crops by levying the fee on a variety of commodities.

The Grange urged again its substitute—the export debenture plan—whereby costs of marketing the surplus would be taken from tariff receipts. An outline of this program was left at the White House.

The Farmers' Union was represented as the conciliator in the parley, hoping for a compromise looking to enactment of legislation at the approaching session.

Determined to solve the farm relief problem, which already is assuming importance in the Republican Presidential situation, Senator McNary declared "the road for this legislation will be made much easier if the farmers only can reach an agreement."

SPOKESMEN HOPEFUL
The farmers' spokesmen indicated their belief that some unanimity of opinion might be worked out early in the year. It is their hope that the conventions of the organizations will modify their resolutions for specific legislation with more elastic provisions, thus enabling their leaders to get down to business on a united program.

A compromise between the equalization fee and export debenture propositions is regarded in some quarters as possible through a measure which might take the form of a government subsidy whereby if there were any losses in marketing surplus crops they would be taken from the Treasury.

In a formal statement, the farmers' conference declared that its members "are unanimously of the opinion that great progress can be made in working out this unified agricultural policy by holding such conferences as this which have been recommended in policies adopted by the various organizations in their annual conventions, should be broad enough in character to permit the eventual working out of a unified program."

LEGISLATIVE SESSION IN HOLD-OVER
MANILA, Nov. 10. (P)—Despite the fact that the insular Legislature was supposed to have adjourned at midnight last night, it still is in session at a late hour tonight and the question has been raised whether bills passed since the prescribed adjournment will be legal. A number of the legislators were among those questioning the procedure.

The insular shipping bill, on which the Senate and House were unable to agree, was the principal cause of the prolongation of the session. Among the measures adopted is one appropriating \$150,000 to employ American civil engineers to survey and map the Philippine archipelago, which has been necessary because of lack of funds to pay civilians in that capacity.

The constitution asking Congress to grant complete, immediate and absolute independence to the Philippines, which was passed just before the scheduled adjournment hour, was adopted without particularly new significance, since it has become a favorite with legislatures of the past.

Women to Rule Fourteen Towns

LONDON, Nov. 10. (P)—Of the numerous mayors elected in English and Welsh towns, fourteen of them are women, including Miss Margaret Bevan, welfare worker, Lord Mayor of Liverpool.

It is an anomaly in British civil life that women mayors are not mayors. That title is reserved for the wife or other woman whom the Mayor or appoints to assist at social functions. Thus, Mrs. Welsh, the new Mayor of Southampton, appointed her daughter Mayoresse to share the social burden of the office.

Van Dyke Scores 'Smart' Writers

PRINCETON, Nov. 10. (P)—The trouble with the present-day "smart" variety of writer is that they expect too much of life and give too little.

Little Dr. Henry Van Dyke, professor emeritus of English at Princeton, declared today on his seventy-fifth birthday.

FOE LOCATES WAR GRAVE

WASHINGTON, Nov. 10. (P)—Recovery and identification of the body of Private George West Stevenson, Seventy-ninth Company, Sixth Marine Regiment, Second Division, who was killed in action in the St. Mihiel fight nine years ago, was reported today by the War Department. A letter from a German non-commissioned officer provided the clue which resulted in discovery of the battlefield grave.

Stevenson, who was born in Denver, enlisted in the marines at Mare Island, Cal., at the outbreak of the war. His mother lives in Price, Utah, and by her wish his body will remain in the St. Mihiel Cemetery in France.

The letter that resulted in discovery of his body was received by the Epworth Herald from Paul Schreier, a non-commissioned officer of a German infantry regiment stationed in St. Mihiel at the time of the American attack. He told of a

SHEIK PLAGUE PERILS BELGIUM

Dancing Gold Diggers from Russia, Argentina and Spain Trap Heiresses Until Whole Nation Arises Against Army of Male Flappers

BRUSSELS, Nov. 10. (Exclusive)—There is an outcry in Belgium against young men from Russia, Argentina and Spain who swoop down on this and other European countries "like a swarm of locusts" and carry off the richest heiresses. So many plums in the matrimonial market have been carried off by these good-looking polished young men that social circles are beginning to ask when and where it is going to stop.

Whatever authenticity their titles may lack, however empty their purses may be, their dancing is perfection itself. The ballroom is the hunting ground for the wealthy daughters of post-war industrialists or the aristocratic descendants of old families.

A number of these matches have come to grief, and with them the sizeable fortunes belonging to the unfortunate girls. Law and custom usually give the management of the wife's estate to the husband.

The success of these dark-eyed, olive-skinned youths and scoundrels from Russia is attributed to an innate knowledge of how to please women, knowledge of a kind which northern men seldom possess in the early years of life. They combine their charm with a practical strain which prompts them to cultivate only those who possess fortunes.

One of the results of the invasion is a movement to obtain legislation permitting a wife to retain control of her money.

MUSIC AIDS MENTAL CASES

CHICAGO, Nov. 10. (P)—Dr. Alex S. Herschfeld, State alienist, believes "we are on the verge of notable discoveries in musical therapeutics."

A piano recital was given last night before 3000 patients at the Dunning State Hospital, with Dr. Herschfeld noting the reaction of the listeners, many of whom are violently insane, to the music.

Andre Skalski was the pianist, and Dr. Herschfeld made the following notations on his program:

"Chopin, Valse in E Minor—Gay music, patients amused."

"Schumann, Traumerel—sad music: patients restless."

"Wagner, Brinn, Wotan's 'Parsifal' and 'Magic Fire Music'—stimulating."

"Liszt, Liebestraum—soothing."

The concert was given as part of the experiment to learn the possibilities of music as an aid to the treatment of insanity cases.

RETROACTIVE TAX LAW HELD LILY

UTAH ATTORNEY-GENERAL OPINION IN WINDS OF PRESENT STATUS

SALT LAKE CITY, Nov. 10. (P)—The Utah State Legislature has the right to enact a retroactive law retroactive in its provisions, according to an opinion given by H. Cluff, State Attorney-General, in the request of Gov. Don. The opinion had to do with the present corporation tax law, which is retroactive in its provisions, and the question of whether it is constitutional because it deprives of 25 cents on each dollar of amount invested within the last

CRIMSON TIDE
TRAILS TITLE
Shines as Foothillers Wallop Toilers
Fumbles Cost Pair of Touchdowns
Shirts Tied With Romans for League Lead

BY EDWARD LAWRENCE
Victory was doubly sweet for the red-shirted Foothillers, who not only defeated their closest rivals, but in so doing climbed up alongside of L. A. High in the City League championship.
Winning Hollywood played its game of the season so far. Foothillers hawked the ball over to finish; the light wood line charged fast and the Crimson backfield must have surprised even itself. Capt. Brown, the made-over fullback, who has always rated high as a reserve back, but not so much in offensive, was an eye opener. He cut his way through the Foothiller line for consistent gains on both through for two touchdowns and one conversion.
Manual Arts was a disappointment. Except for a few brief moments in the final quarter, the defense were on the defensive throughout the game. A brief flurry of passes put Manual Arts in the way of a score in the closing moments but a fumble by Manual Arts converted into a touchdown stopped that advance.
FOOTBALL FUMBLERS
Left Vajar, Hollywood's 130-pound halfback, ran Manual Arts' kick-off back to his own end line to get the game under way. Failing to make a wide pass, he stepped back and booted the ball. Vajar, who was downed on a 20-yard line, Palmer, by way, got off some brilliant kicks on a slippery ball.
On the second play, Towle fumbled and Vajar fell on the ball for the break of the game. Brown, the line for 5 yards, but not much on an outside pass. Vajar was handed the ball and he passed through his own tackle for a first down on a 20-yard line. Vajar's right end on a reverse for a touchdown.
A triple lateral pass from Vajar to Brown was for the extra point.
The Foothillers kicked off to Manual Arts.

WANERS GIVEN WAGE INCREASE
Brothers All Set for Big Season With Pittsburgh Team Next Year

PITTSBURGH, Nov. 10. (AP)—The baseball act of Waner and Wanner is all set for the 1928 season.
Paul and Lloyd Waner, sensational Pirate outfielders, now doing a turn in vaudeville, signed contracts for next year after a conference with Owner Barney Dreyfuss yesterday. Advances over last year's contract were given both players, but neither divulged the terms of the new documents nor the salary boosts and Dreyfuss retained his usual silence on such matters.

RABBIT PUNCHES

BY PAUL LOWRY
MISTER ELL, football player who performed at New Haven a few years ago, is perturbed because he fears the public is not getting the right slant on the Bruce Caldwell situation. He is afraid the public can't understand why the boy himself of the Yale authorities can be innocent, and he attempts an explanation, not an excuse.

He says the rule under which Caldwell is barred from competition was passed in 1921, and Caldwell's momentary participation in a couple of freshman games at Brown occurred in 1923. "It was a bit of a fact as to him," says my informant. The rule, so far as known, is in force only at Harvard, Yale and Princeton and provides that if a man has represented another institution on any athletic team he can never represent one of these three in the same sport.

Caldwell played only a few minutes as a "fresh" substitute at Brown in 1923, and transferred to Yale to take a full four-year course. According to eligibility rules in existence at other leading institutions in the country he would be eligible for three years of varsity football. But the 1924 rule hit Caldwell, although it seems he was unaware of its effect in his case, and Yale did not know of his Brown freshman competition. Mister ex-Ell player puts it this way:

"The rule was put into effect January 1, 1924, and Caldwell's play was in 1923, so it was a bit late."

TIA JUANA MAY GET WELTER GO

Waxman Says Bout Might be Staged Near Border

Dundee's Manager Has Offer from Mexican Town

Champion Attends Confab in Prosecutor's Office

The Joe Dundee-Ace Hudkins welterweight championship battle may be staged in Tia Juana, Mex. Dundee's manager asserted last night, as the ramifications of the attempted promotion of the fight here a week ago assumed the proportions of a cat-and-dog fight, with fighters, managers, State Athletic Commissioners, the City Prosecutor and various attorneys hurling charges promiscuously.

JOE DUNDEE

Possibility of the Mexican battle came to light at a conference in the City Prosecutor's office late yesterday afternoon, when Max Waxman, Dundee's manager, asked if the Prosecutor would oppose a fight at that place.

Assured by City Prosecutor Lickley that he (Lickley) had no jurisdiction over Mexican affairs, Waxman later declared that he had received overtures from interests representing James Coffroth and Baron Long and expected to get definite action on the matter today.

In the meantime, the scrap between City Prosecutor Lickley and members of the State Athletic Commission grew warmer. The conference in Lickley's office was attended not only by Dundee and his manager, but by their attorney, S. S. Hahn. During the discussion the lawyer made certain assertions, and Lickley declared that if they could be backed by the testimony of competent witnesses a complaint would be issued against the commission.

In brief, Hahn declared that Waxman, in newspaper interviews before the fight, had repeatedly asserted that his fighter would appear in the ring unless assured of his guarantee of \$60,000, and that the commission, knowing Waxman's attitude, nevertheless let Dick Dundee, promoter, proceed on a "shoestring" and without properly protecting either the fighter or the public.

Hahn makes charges. Secondly, Hahn told the Prosecutor, he could prove that the commission, or at least one of them, had offered Waxman a check for \$1000 in the tower of Wrigley Field on the night of the proposed fight and after Waxman had refused to let his boxer appear because the gate receipts did not cover Dundee's guarantee. The offer, it was asserted, was a violation of the State boxing laws which stipulate that no money shall be paid a fighter before entering the ring.

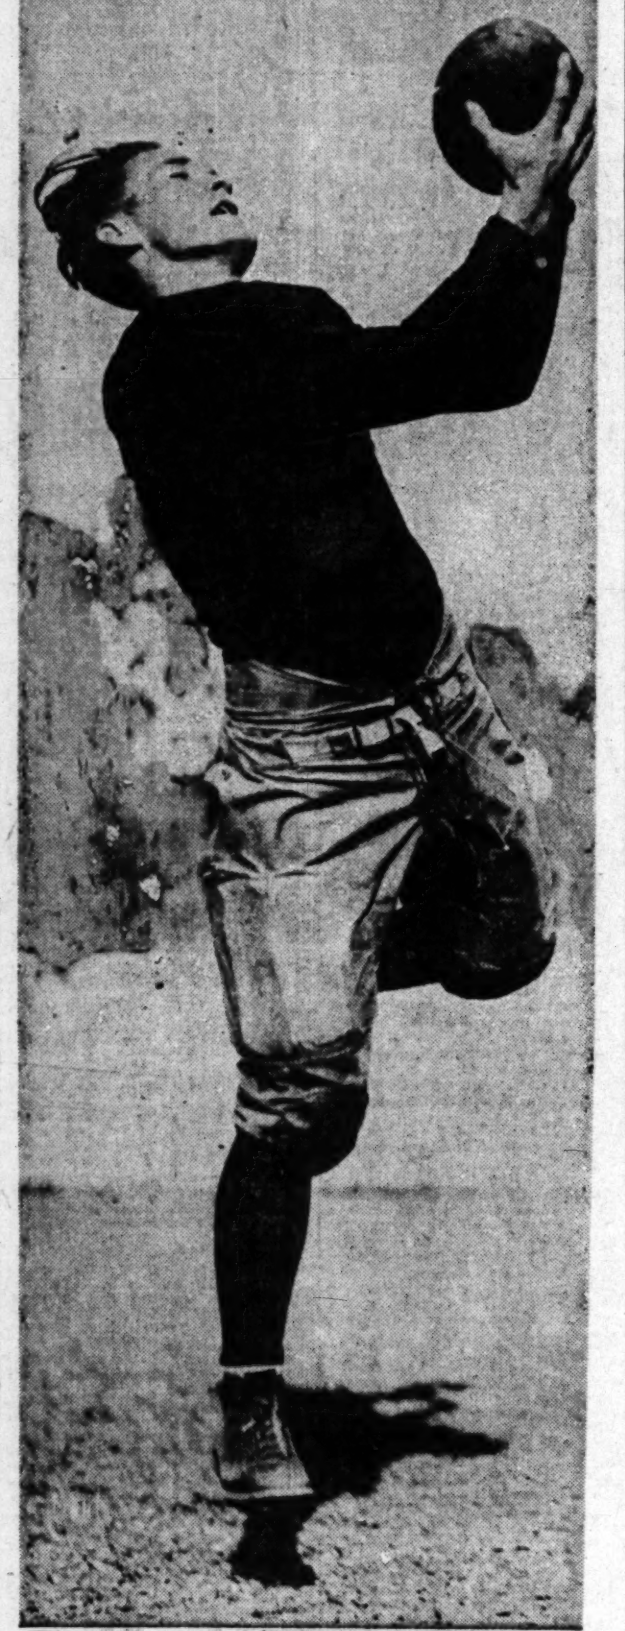

After listening to Hahn's statements, the City Prosecutor told the attorney that if he could produce the witnesses to prove his assertions, a complaint would be issued. Later the attorney asserted that he expected to have the necessary testimony prepared for the Prosecutor by Saturday morning.

Another result of the conference was permission granted by Lickley to

CALLAHAN BOWS TO DICK HOPPE

Junior Welter Champion is Given Beating

Title Not at Stake in Bout at Hollywood

Winner Piles Up Big Lead in Early Rounds

Dick Hoppe, a veteran of the local rings, upset the dope last night at the Hollywood Legion Stadium when he took a well-earned decision over Mushy Callahan.

Hoppe, the world's junior welterweight champion, did not lose his title, though, for both boxers came in over the weight, Mushy scaling 143 pounds and Hoppe 142½.

Hoppe was a furious pace at the start and had piled up a big lead at the half-way mark, which found Dick with four rounds to his credit and one, the fifth, even. Dick's best early round was the second, in which he shot over one hard right to the jaw that made Mushy's knees sag. That was about as close as a knockdown as anything in the scrap.

Callahan opens up. Hoppe went on to capture the sixth by a shame and then Callahan, realizing that he was behind and had a tough fight on his hands, began to open up. Mushy took the seventh, eighth and ninth rounds, doing his most effective work in the ninth. Callahan found Hoppe with a left uppercut to the month several times in this round. Dick's mouth was bleeding copiously when the ninth ended.

However, Hoppe had something showed away in his last 2½ bag and he went out and proceeded to take the tenth round from Mushy and clinch the verdict. Dick landed one good right in the tenth, that slightly staggered Mushy.

Mike Waters, the former L.A.C. scrapper, staged a strong rally in the sixth round to gain a decision over Joe Guerrero, local 133-pounder, in the semi-wind-up. The bout was fast all the way and the boys supplied the fans with plenty of thrills by their eagerness to swap punches.

In the special event Red Humphries, a fast one on a featherweight, gained the nod over Bert Mazau who boxed for the Olympic Club of San Francisco in his amateur days, substituted for Jimmy Flia and took on too tough a customer in Humphries.

In the other bouts Mickey Erno knocked down June Lagers twice and won a decision, and Art Tarnell defeated Joe Borden.

TIGERS FAVORED TO WIN OVER QUAKER GRIDDERS

Presence of Pendleton Strengthens Poet Chances; Pomona Takes on Bulldog Team at Redlands

Holiday sentiments of greetings and good will are certain to be cast to the winds this afternoon when Occidental's Tigers leave their lair in Eagle Rock to invade "Ye Friendly City" of Whittier for a pigskin engagement with the Poet eleven at Hadley Field. Promptly at 2:30 the two teams will open fiery attacks for supremacy and a victory to boost themselves nearer to the top of the final Southern Conference standings for the season.

Coach Albert A. Exendine realizes the strength of his opponent very emphatically, in fact, to such an extent that the Tiger mentor will take little if any chances by starting his first-string line and his most powerful offensive backfield quartet. It is a minor surprise that Occidental's annual Pomona and Oxy battle in rivalry, and the past years have found the Poets capable of giving the favorite teams of the Bengals too close battles for comfort and safety.

Whittier got off to a poor start this season, but has accomplished a great comeback and to prove the fact administered the San Diego State eleven a thumping by an overwhelming score of 25-7, a victory even more convincing than Pomona. With the return to the backfield of Oak Pendleton, Tashy halfback, the Poets are greatly strengthened, and now boast a terrific line-plunging and smashing attack that will worry the visitors plenty.

If any one individual will bring the home team a victory today

WEATHER CHEERS BEARS

First Rays of Sunshine During Week Give California Grids Chance for Decent Workout

BERKELEY, Nov. 10. (Exclusive)—The first rays of sunshine in a week poked down from the skies today to clear up a thoroughly dampened atmosphere and to give the California football variety a shot of hope toward their battle Saturday afternoon with the formidable Washington eleven, loser to Stanford by a small margin and still considered one of the big threats of Pacific Coast Conference play.

Sunshine gave stimulus to the faint prospect of a dry turf for game time, a condition which would prove of immeasurable value to the California Bears.

Although Coach Clarence "Nibs" Price does have some power in his backfield, his greatest asset lies in sheer speed. A wet field and speed have proved in the past to be but poor co-operators. Washington's power, on the other hand, is said to suffer but little from conditions imposed by a boggy gridiron.

The weather man having kept his promise to relieve the rainy situation, Coach Price today sent his Bears through one of the week's most drastic workouts, all to the end of determining just what backfield men to send against the Huskies. The line is quite a definite proposition already.

It appears that the starting back-

FURTSCH GOES GALLOPING

AS POLY BEATS JEFFERSON

BY BOB RAY
Freddy Furtuch, the Mechanic mystery man, did quite a bit of galloping out on Fulton Field yesterday an dthe net result of gridiron to Stanford by a small margin and still considered one of the big threats of Pacific Coast Conference play.

The Democrats, especially Morgan and Early in the line, battled hard to stop the Mechanic attack, and in the last quarter they managed to put over a touchdown of their own when Gothard smashed over from the 1-yard line. End runs by Creevy and passes from Gothard to McClung put the Jefferson squad in position to score after the Democrats had obtained the ball and started a march from their own 45-yard line.

Polytechnic started off with a rush and put over a brace of touchdowns in the opening quarter. Morgan and McBride rushed the ball down to within scoring distance and then Furtuch was called into action to score from the 14-yard mark. Later in the period Furtuch took the ball again and this time he ambled 37 yards to score.

Polytechnic started off with a rush and put over a brace of touchdowns in the third period and tallied with a 30-yard gallop over left tackle for a touchdown. On the first play of the last quarter Furtuch took the ball over from the 8-yard line for the final Poly touchdown. After that Coach Voyle Brennan took out his regu-

FIRPO, DOWN TO 250 POUNDS, PLANS EARLY RING COMEBACK

NEW YORK, Nov. 10. (AP)—Luis Angel Firpo, is preparing to leave his automobile salesroom in Buenos Aires to return to this country to cut in on a few big jackpots such as the foreign and domestic heavyweights have been sharing in this country of late. Firpo in his comeback will be managed by Jimmy DeForest.

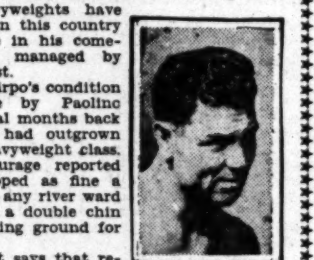

Reports of Firpo's condition brought here by Paulino Uscudun several months back were that he had outgrown even the heavyweight class. Paulino's entourage reported he had developed as fine a bay window as any river ward alderman, had a double chin and was breaking ground for a third.

But DeForest says that reports of Angel's physical condition have been exaggerated. He weighs not an ounce over 250 pounds, which is under the light-pachyderm limit and is fully convinced after peering at the cinematic reproduction of the late Tunney-Dempsey fight that he can lick either or both in the same ring on the same night.

(Continued on Page 13, Column 3)

Cities of Nation

—

Run Program Planned;
Home Office Here

of a new chain of motion picture theaters for the smaller towns of the country was announced last night by Lester, president of Principal Theaters Corporation of America.

Every share of stock for the circuit, now in the process of being sold, already involves thirty theaters, all in towns of about 10,000 population. The subscription, he declared, has been so successful that the concern also has affiliations with some fifty other houses and expects to acquire more in the near future.

The new chain of theaters is the return of Lester, formerly president of West Coast Theaters and First National Pictures, to the business of exhibiting motion pictures in the industry after an absence of ten years. At the beginning of his career he announced his retirement from business and sold out his interest.

He was 39 years of age at the time.

[illegible]

Chaplin, Harold Lloyd, Fox, Mary Bow, Colleen Moore, Warner, John Gilbert and others.

It has started on a new theatrical venture which will represent a new sort of management. A similar house is being designed by Maria by Architect Julius Rosenberg. It will not be in competition with the old theatre, but will be a new one needed co-operation with the smaller cities wherein the theatre has been established. I thought I could retire and take a pleasant life for my share. But the motion picture business has been so successful that I was 17 years of age, called me."

IN THE CHAIN

Principal Theaters Corporation, organized by Lester K. Born, has the following: Principal Theaters Corporation of California; Western Southern California Principal Theaters Corporation, Central, with Fred H. Davis, Ky. president; include Kentucky, Tennessee, Ohio and Missouri; Principal Theaters Corporation of Pennsylvania, a \$1,600,000 concern; Principal Theaters Corporation of Virginia, embracing theatres in California and Nevada; Principal Theaters Corporation in the Middle West, with
